			Haverstock					I am a partner in a local GP practice that helps look after frail patients as well as those with dementia. We have 160 patients in care homes. My partners are CCG leads in mental health, dementia, women's health, child health, musculoskeletal health and diabetes. We are trying to improve the medical prospects of our patient population, despite the negative political environment for state-led health care.		current	29/11/2016	12/11/2018
