

**Camden Clinical Commissioning Group
Commissioning Committee Meeting**

Report Title	Commissioning Committee Summary Report
Chair	Dr Neel Gupta
Report Author	Tyrieana Long, Board Secretary
Report Summary	This paper presents a summary of the meetings of the Commissioning Committee held on 25 January 2017 and 22 February 2017.
Recommendation	CPPEG is asked to Note the summary report.

Strategic Objectives Links	<p>The strategic objectives are:</p> <ul style="list-style-type: none"> • Commission the delivery of NHS constitutional rights and pledges • Improve health outcomes, address inequalities and achieve parity of esteem • Integrate and enable local services to deliver the right care in the right setting
-----------------------------------	---

<p>CPPEG representative comments</p>	<p>To be read in relation to summary of decisions made:</p> <ol style="list-style-type: none"> 1. Nothing to add on the obesity issue except to endorse the judgement of an under performing service, possibly because of confused referral arrangements. The 19 still on the programme to be signposted to other services while more coherent pathway is sought 2. I commented on earlier discussions on homelessness in my CC comments noted at January's CPPEG meeting. The cost of the service, though small, was nearly twice the emergency care savings. The decision not to defer action on decommissioning was passed by 6 votes to 3, but with immediate review and consideration of options for the future promised for the March meeting(though not initially included on the advance agenda) 3. In view of the high costs of CICS I await the promised July review with interest and reiterate the quote from the independent review in my earlier note that "the available data suggest that CICS is seeing only a very small proportion of Camden patients whose conditions could be managed by clinics or services at UCLH, royal Free and CNWL" 4. Some concern about how effectively the Acute Home visiting Service is being run, but clear appreciation reported in the review from the recipients of it. 5. I abstained in the vote for proceeding on the basis of a one year extension with future provision then to be on an 'any qualified provider' basis. Given the recent major highly publicised problems with the main contractor (Marie Stopes International) it seemed to me inappropriate to move to a position where things could possibly go wrong on a wider front. However, as I did not make my position clear in discussion during the CC meeting, I realise that the reason for my abstention might be misinterpreted - so,for the record, I am definitely not anti-abortion. 6. The governance review includes amalgamation of the Joint Commissioning Committee and the Commissioning to form a Camden Integrated Commissioning Committee which will still include CPPEG representation
---	---

Summary of the meetings held on 25 January 2017 and 22 February 2017

Items of Business

January Meeting

- Tier 3 Adult Weight Management Services
- Review of Camden's Homeless Healthcare Provision
- Review of Camden Integrated Care Services
- Acute Home Visiting Service Evaluation
- Overview of Transformation Initiatives
- A&E Delivery Board Report
- Joint Commissioning Committee Report

February Meeting

- Termination of Pregnancy Services
- Mental Health Liaison Update
- Primary Care Service Model within A&E
- A&E Delivery Board Report
- Joint Governance Review
- Committee Risk Report

Decisions Made

1. Tier 3 Adult Weight Management Services. The Committee approved the recommendation to decommission the Tier 3 Adult Weight Management Specialist Service from 31 March 2017 on the basis that there was no allocated budget to continue the service and low numbers of service users. The Committee supported a review of the obesity services from Tiers 1 to 4 to establish a more coherent pathway.
2. Review of Camden's Homeless Healthcare Provision. The Committee supported the proposal to decommission the current healthcare provision for homeless people taking account of the CCG's financial constraints and on the understanding that work would continue with the provider to explore alternative models of healthcare. The Committee agreed to receive the findings of the review and detailed options for future services for homeless people at the March meeting.
3. Camden Integrated Care Services (CICS). Further to consideration of the review findings at the December meeting, the Committee agreed to support the continuation of CICS with the proviso that a clinical and performance evaluation of all services was reported at the July 2017 meeting.

4. Acute Home Visiting Service Evaluation. The Committee agreed to consider the recommendations of the evaluation report at the March meeting to allow time for financial analysis of the available options.
5. Termination of Pregnancy Services (ToPS). The Committee agreed to extend the current ToPS and Central Booking Service (CBS) contract for one year and approved the re-procurement of ToPS and CBS for better alignment of service provision across North Central London and improved choice for patients.
6. Joint Governance Review – The Committee discussed the CCG’s recommended governance structure and supported its presentation at the March 2017 Governing Body meeting for approval.
