

1: Locality Committee Report
2: 21/12/2018

Chair of Committee	The South Locality Committee is chaired by Dr Jonathan Levy, the North by Dr Martin Abbas and the West by Dr Birgit Curtis.
Report author	Tori Awani -Member Relations Manager
Report summary	This paper is a summary report of Locality Summit held in November 2018
Strategic Objectives of Committee	<p>The strategic objectives are:</p> <ul style="list-style-type: none"> ensure that Members have the opportunity to contribute to and shape the development of policy and commissioning strategy within the context of the CCG's Strategic Plan and Commissioning Intentions advise the Governing Body of Locality priorities and identify any commissioning requirements unique to the Locality support the Members of the Locality to engage with the CCG and Governing Body
Recommendation	CPPEG Members are asked to note the report.

Items of Business Discussed	<p>One of the key ways that Camden CCG engages with its members is through Locality Committees and Summits.</p> <p>This report summarises the November summit.</p>
Decisions made	<p>The aim of the event was to receive input into the design and development of an integrated model of primary and community care for Camden.</p> <p>Through a series of discussions and interactive exercises attendees from Camden council, community and secondary providers worked together to define the actions required to develop and implement the model from a GP/primary care perspective.</p>

CPPEG Representative comments	<p>Hilary Lance North Locality “This is an exciting but ambitious and complex programme which will take time to become embedded. It requires the development of understanding and trust between different professions, culture change, flexible thinking, skilled communication, good recording. It challenges commissioning approaches and definition of outcome measures. Where integrated delivery of care works well time spent in meetings can be reduced. Where it works clumsily, time in meetings may be increased with little benefit. Other challenges locally will be the constraints on the estates side which may mitigated against professional being based in the same locations. Use of new technology will in time help to overcome some of the constraints”</p> <p>David Richards West Locality (David was on leave and missed the meeting).</p> <p>Kathy Graham Harrison South Locality “comments to be added following the meeting”.</p>
